

COVID-19 Update – April 28, 2021 – Vaccine Update

To: Resident, Family Members and Team Members – The Waters Senior Living

We are excited to share some positive updates now that so many residents, essential caregivers and team members have been vaccinated!

We hope the following information gives everyone a high level of hope around the idea of life gradually becoming more like it was before the pandemic impacted everything we were all accustomed to.

Good, encouraging news:

- For months now, we have had ZERO resident cases since the vaccine clinics were initiated.
- We have had over 98% participation by residents of The Waters Senior Living.
- Hundreds of “Essential Caregivers” have been vaccinated.
- Strong participation in Waters team member vaccination, too!

What does this mean?

This good news means that more people are contributing to assuring the overall health and wellbeing of all who live in, work at, or visit one of our beautiful Waters Senior Living communities!

PLUS, these good results, due to high vaccine participation, are enabling:

- Visitation to open up
- Dining and community social activities to be less restricted

Now, an increased number of our residents and team members can get back to THRIVING!

The vaccine gives us hope for a new chapter in our fight against this virus. You have been instrumental in this fight, and we are grateful for your partnership, patience, and now, hope, for a positive next step in this COVID-19 journey. Should you have any questions, please reach out to your Executive Director.

Sincerely,

Tami A. Kozikowski | President and Chief Executive Officer
